

FST-01 Film Free Shrink Tester

FST-01 Film Free Shrink Tester is applicable in heat shrinkage test and size stability test of films, heat shrinkable pipelines, medical PVC sheets, back sheets and other materials in liquid under various temperatures

CHARACTERISTICS

- Micro-computer control, LCD data display;
- Manu interface, PVC operation board;
- Liquid medium heating;
- P.I.D. temperature control system;
- Automatic timing;
- Specimen clamp net frame.

TECHNICAL INDEXES

- Specimen Size: $\leq 140\text{mm} \times 140\text{mm}$
- Temp. Control Range: room temperature $\sim 200\text{ }^{\circ}\text{C}$
- Temp. Control Accuracy: $\pm 0.3\text{ }^{\circ}\text{C}$
- Power: AC 220V 50Hz
- Net weight: 24kg

STANDARDS

ASTM D2732, ISO 11501

CONFIGURATION

Standard: mainframe, 5 sets of nets, 3 net frame shelves.

Optional: net frame and net frame shelves

Note: User provides heating medium / liquid
