

Double Wheel Cutter

Code: N.303.xxx & N.304.xxx

Usage

Innovative sample cutting for strips of paper and board.

Applicable standards

- ISO 1924
- SCAN P38

Device description

The double wheel strip cutter gives the opportunity to prepare paper samples for tensile tests and similar without effort and simply by pushing the wheels over the sample material. The blades are installed underneath a protection cover and are sliding forth and back on two sliding bars. After the cut, the sample can be easily taken out from the sample guide. There are two different lengths available.

Models

Code	Length 350 mm	Code	Length 550 mm
N.303.127	sample width 12.7 mm	N.304.127	sample width 12.7 mm
N.303.150	sample width 15.0 mm	N.304.150	sample width 15.0 mm
N.303.250	sample width 25.0 mm	N.304.250	sample width 25.0 mm
N.303.254	sample width 25.4 mm	N.304.254	sample width 25.4 mm
N.303.300	sample width 30.0 mm	N.304.300	sample width 30.0 mm
N.303.500	sample width 50.0 mm	N.304.500	sample width 50.0 mm
N.303.1000	sample width 100 mm	N.304.1000	sample width 100 mm
N.303.1350	sample width 135 mm	N.304.1350	sample width 135 mm
N.303.1500	sample width 150 mm	N.304.1500	sample width 150 mm
