Model TT 2200 Tensile Testers

Benz TT 2200 series stretch high elongation materials to 48", offering realtime force and elongation values.

As realtime force and elongation values change, Benz TT 2200 tensile testers display them on a computer monitor for study, comparison, printing and record-keeping.

TT 2220's offers uninterrupted "load and go" operation. Results are precise and reproducible. Reports are easily customized.

The Benz TT 2210, the largest of the Benz tensile tester series, has a tensile force of 10,000 lbs. The
