Item # 1002, DIN Abrader

The new Benz DIN Abrader accurately and consistently measures the abrasion resistance of cured rubber compounds, enabling quality control engineers, purchasing agents and researchers to compare and verify the durability of rubber compounds.

The Benz DIN Abrader offers companies verification of materials abrasion durability, which is crucial for insuring quality, comparing suppliers and verifying claims.

The Benz DIN Abrader removes rubber from a 16 mm (5/8") diameter sample. It allows the
